Email

thingamagicindia@gmail.com

- Link to recorded performance(s)
- Synopsis
- About the Company / Artist

WHAT'S THINGAMAGIC?

Performances

Bringing to Indian audiences handpicked **Object Theatre** performances from around the world, in 3 formats:

- Recordings of existing performances that were performed to a live audience.
- Performances created for digital viewing, performed LIVE on an online platform.
- Performances created or adapted for digital viewing, Recorded.

Post - Show interactions

Each performance will create a space for an interaction between the artists & the audience. In the digital world, this is the way we bring audiences & performers closer to re-live the theatre experience.

Workshops

There will also be workshops for the young & adult audiences.

Behind the Curtains

A guided talk on the-making-of a performance. For young object theatre artists, for those making a start in the art form, for those in applied arts fields, and for all those interested to know how an object theatre performance evolves from concept to stage, this will be an artist's experience.

Lec-Dem

A conversation on objects, history & evolutions, techniques & guiding philosophies of Object Theatre.

**Curated shows will be compensated professionally*

INVITING WORKSHOPS:

- For the young
- For artists & practitioners
